

Non-residential Remote Psychological Tests Information Clinical Assessment Programme

As part of the Non-residential Remote Clinical Assessment Programme you will be asked to complete two personality profiling questionnaires online, the MMPI and the MCMI-III. These tests need to be completed at least the week before your scheduled Zoom meetings. You will receive an administration email for each test with a **link** to start the test.

Once you access the **link** for the test, make sure that you read the instructions carefully and answer all the questions.

The test could take up to 120 minutes each to complete-so please give yourself time to finish each test in one sitting.

You will receive an invitation email to do the test from:

The email has the following instruction:
